Removed right magneto P/N 6350 S/N 95080024. Installed new magneto P/N 6350 S/N 11060708. The installation of the later S/N magneto required the drive gear to be re-clocked in order for the magneto to be installed in the correction orientation. During the drive gear removal the support bearing came with the gear. Removal of the engine was required to ensure the correct reinstallation of the bearing. The engine was removed and reinstalled IAW Extra Service Instructions Chap. 71 & 72. Magneto replacement was done IAW Lycoming service instructions. Serviced engine with oil and replaced oil filter P/N CH48108-1. Ground run and leak check was satisfactory.
